Dear Crea,

I loved the games you organized they were wonderful. For me the trip was perfect. I loved the convent and I loved my room of 6. I learned a lot of old centuries and about St. Margaret. I liked seeing her preserved body. It was so cool. Even the jousting was cool. When I arrived in Cortona I was scared that the food would be good but when I ate I loved it. The place of the disco was wonderful I wished that all the teachers danced but only Miss Curran and Miss Fenneman. I really liked the flag throwing demonstration. They were really good. I would love to come again, you were so good and gentle to us. It was wonderful and I loved it all. The most cool thing was the shields. I loved the cobras and I even liked making them. I liked the city it had a very good view from the convent. The Lago Trasimeno was very cool and when we arrived to the island I liked the questions game. I love the trip. P.S. Thank you for the ice cream you offered to us.
